**WHEREAS**, the parties hereto desire to pool, combine and unitize portions of the property covered by the above-described leases for the operation of one Reservoirwide Unit in the 8-11 RA SU, as set forth in Paragraph I (hereafter referred to as "Reservoirwide Unit" or "Unit"), for the purpose of more efficiently and economically developing, producing from and operating upon the

hereinafter described Unit, and for the institution of a secondary recovery and pressure maintenance program by the injection of water or gas, and in order to prevent surface and underground waste, and to avoid the drilling of unnecessary wells, to obtain the greatest ultimate recovery of oil and gas, to promote maximum conservation and to insure to each of the parties hereto its fair share of production from the unitized property.

**NOW, THEREFORE,** in consideration of the premises and the mutual benefits to accrue hereunder, it is agreed between the parties hereto as follows:

**I.**

Subject to approval by the Office of Conservation, all those portions of the aforesaid leases, and the mineral, royalty and overriding royalty rights thereunder, which lie within the surface boundaries set forth on the survey plat entitled, "Hilcorp Energy Company, 8-11 RA SU, West Bay Field, Plaquemines Parish, Louisiana", which is attached hereto and made a part hereof as Exhibit "A", are hereby pooled, combined and unitized, and may be operated as a unit, insofar but only insofar, as said oil, gas and mineral leases, mineral, royalty and overriding royalty rights pertain to the exploration, development and production of oil, gas and condensate from said Unitized Zone, being defined as that oil, gas and condensate bearing zone occurring between the depths of 8,505 feet and 10,910 feet in the Pennzoil Producing Company – Tambour Corp. No. 32 Well (SN 100618), located in the West Bay Field, Plaquemines Parish, Louisiana. The Unit created hereby shall be known as the **WB 8-11 RA SU**, and the surface acreage comprising said Unit being hereby determined and apportioned as to the property covered by each of said leases as follows:

Subject to the concursus on conflict tracts referenced herein, the parties hereto agree that the division and apportionment in the surveyed pooled Unit shall be and remain binding, until, within the period of this agreement, either party may have established by definitive judgment of a court of competent jurisdiction, or in any other lawful manner, the exact limits of its claimed ownership. The division and apportionment of interests within said Unit shall be in proportion to the ownership, as so established, within the entire Unit hereinabove described. If, at any time, any question or litigation shall arise as to the ownership of any part of the property covered hereby or as to any boundary or limit of any part of the property covered by any lease or leases herein concerned, the Parties acknowledge and agree that the execution of this Agreement and the payment made hereunder with reference to percentages of participation in mineral production allocated to the Parties herein shall not constitute a settlement of or a determination of title to immovable property. Furthermore, this Agreement is not intended and shall not be construed as any recognition or relinquishment of ownership, boundary, or limits of any land or water bottom tracts covered by the leases, and shall never serve as a basis of estoppel, *res judicata*, or to prevent any of the undersigned Parties from claiming and establishing ownership, boundaries, or limits of the Conflict Tracts after the date of the Agreement. The Unit Operator shall file a concursus as required herein to settle any claims of the parties as to the extent of their royalties in the tracts of the unit.

Within sixty (60) calendar days of an order being issued for the reservoirwide unit provided herein in Article VII, the Unit Operator shall initiate a concursus proceeding on the disputed unit tracts. Furthermore, the Unit Operator shall deposit the payment required under the aforesaid disputed leases into the registry of the court pending a final and definitive adjudication or settlement of said mineral ownership, title dispute, or claims of the parties.

## II.

Except as may be hereinafter provided, the commencement of actual drilling operations (spudding in), completion or reworking of a well, or production of oil, gas and condensate from a well, on any portion of the Unit created hereby shall have the same effect upon the above-described leases included in such Unit as if such operations were commenced or conducted, or such well was drilled, completed, reworked or located on, or was producing from that portion of the property covered by each of the said leases which is included within said Unit.

## III.

There shall be no obligation on the part of the lessee under said leases to drill any well to the Reservoirwide Unit on one part of said Unit to offset another well or wells drilled on other property within said Unit, and said Unit may be drilled, developed and operated for the production of oil and gas as a single unitized operation in accordance with this agreement and as one lease without reference to the boundary line or lines separating the properties within said Unit.

## IV.

Except as provided for in Paragraph VII, in the event of production of oil, gas and condensate from any portion of the aforesaid Unit, it is agreed that such production shall be attributed to the aforesaid leases in the proportion that the number of surface acres covered by such lease and included in said Unit, as set forth in Paragraph I above, bears to the total number of surface acres included within said Unit. As to said Unit, in lieu of the royalties to which the owners thereof would otherwise be entitled to receive by virtue of the aforesaid lease, such owners shall receive and accept, out of production or the proceeds from production from said Unit, such portion of said royalties as the number of surface acres covered by the applicable lease and included in said Unit, as set forth in Paragraph I above, bears to the total number of surface acres included within said Unit. Royalties accruing hereunder shall be paid in the same manner and subject to the same conditions as stipulated in the applicable lease or contract.

## V.

Neither the creation of the aforesaid Unit, nor anything herein contained shall be construed as prescribing any standard or measure as to what shall constitute proper development of the property covered by the aforesaid leases. It is further understood and agreed that this agreement shall not require the State and/or any royalty owner under the aforesaid leases to pay for any development or operating expenses.

## **VI.**

Except to the extent herein expressly provided, nothing herein contained shall be construed as altering or otherwise changing in any manner any of the terms or provisions of the aforesaid leases.

## **VII.**

Upon execution of this agreement by 75% in interest of the Royalty Owners and 75% in interest of the Working Interest Owners and Overriding Owners within the Unit Area or the Participation Unit Area, based on the Tract Participation as shown on Exhibit "B-1" and Exhibit "B-2", the Unit Operator has applied to the Commissioner of Conservation of the State of Louisiana for issuance of a formal order, based upon legal notice, after public hearing, establishing such Unit Area as a single unit for the exploration for and production of Unitized Substances, pooling and integrating all interests therein, approving and adopting the Tract Participation, in accordance with the terms and provisions hereof, all in accordance with law and particularly LSA-R.S. 30:5(C) ("Reservoirwide Unit"), and except as provided herein, the final interest of the parties shall be determined by the concursus filed by the Unit Operator or by agreement of the parties. It is stipulated that the Commissioner of Conservation shall not change the Tract Participation and the Commissioner may not alter or revise the lands in such area or the Tract Participation after the issuance of the initial order referred to herein, unless there is new and additional geological and engineering evidence which requires that such changes be made, and then only after public hearing based upon legal notice. If the aforementioned hearing results in an order by the Commissioner of Conservation denying the application of the Unit Operator or if an order approving the application is later denied on appeal, then this Unit Agreement shall not terminate; but shall remain in full force and effect in accordance with its own terms as set forth herein. Except for the termination provision provided herein, this agreement shall continue in full force and effect as long as all leases covering lands committed to this agreement are maintained according to their own terms or until such time as the Commissioner of Conservation issues an order dissolving the unit. The Unit Operator shall file a revised division of tract participation of the parties, as appropriate, based upon the resolution of tract royalty ownership.

A drilling and production unit has been created for the 8-11 Zone, Reservoir A, under Order No. 396-AAAAA-2 and Order No. 396-AAAAA-3, dated effective October 8, 2024, and the hearing on the reservoirwide unit is set for November 26, 2024 under Docket Nos. 24-326 and 24-327.

## **VIII.**

This instrument may be signed in any number of counterparts, each of which shall be deemed to be a duplicate original, and all counterparts together shall constitute a single instrument.

## **IX.**

This agreement shall be binding upon the parties hereto, their respective heirs, successors and assigns. This agreement shall be effective as of the date first written above.

IN WITNESS WHEREOF, the parties hereto have executed this agreement as of the date first written above.
